When Harry Met Lily

Lily came to London to work as an aupair with 100 Euros in her pocket and 2 suitcases full of hopes and dreams. For a while, it really felt like it was her time now. Travelling the world, meeting new people, becoming part of a family where she felt she really belonged. But there was something missing. She would meet property investors, lawyers, bankers. They would have great conversation, and at the end of the evening they would say - So, what do you do? Lily would say, smiling: “I am a nanny”. They would run, never to be seen again.

She started thinking there was something wrong with her. She published her book “Meet The Nanny”. On the last pages of her book she wrote: “I have met a few princes and a few frogs. I may not have found the right one yet, and I am still waiting, but I know one day my prince will come and I will be even happier.”

She was looking for ways to promote her book and also - for a boyfriend. She had low confidence because of a traumatic childhood, and she was looking for something but she had no idea what it was. She was struggling to find her purpose and a way to use her skills. She felt she hadn’t achieved much, like she had lived 29 years for nothing. She was asking everyone - “Do you know what I could do with my skills?”.

The course leader at a personal development seminar she was at said “walk in that direction - there is one guy who has an English school - maybe he can help you”. Lily walked in that direction, in a room full of 300 people, but she had no idea who the man was. She sat down next to a bald man with a paunch, not really Lily’s cup of tea. She was slim, full of energy and enthusiasm and gathered a lot of attention around her. He seemed quite boring and really focused on the course. That man was Harry.

Harry was looking to write his first book but had no idea how to do it. As soon as he realised that Lily had already published her book and was helping others write their books, he asked for her help to ghostwrite it. Later on he started dating Lily. Her book found her a ‘prince’ faster than she thought. Have you ever noticed how when you are looking for something, sometimes something even better comes along? Later on he offered her a job managing his property business, English school and career advice part of the business.

As a result, Lily helped over 2000 people to find accommodation, their first job and taught them enough English as to find their first job. Lily used her creativity to double the price of the English courses, increased the property rental prices by adding value and by improving their image.

Many years later, she started looking for her purpose again. She discovered she loved writing and turning ordinary things into extraordinary products. She decided to help aspiring speakers to enhance their image so they can bring to life their extraordinary knowledge and stories. She knew she would need to learn to speak confidently and fearlessly so Harry trained her at Speakers Are Leaders to overcome her huge phobia of speaking she had for 30 years.

Since then, she has empowered over ten thousand people to enhance their image and is working closely with a select, limited number of people who want to be booked to speak as keynote speakers, enhance their visibility and personal brand & fast track the growth of their business through turning their knowledge into books, workshops & online courses.

She helped Harry improve his image online through persuasive copywriting on his websites, workshops and online products. Lily has helped authors enhance their image and as a result they got featured on TV, sold books, got invited to speak at prestigious conferences and much more.

The point of the story is when you are looking for something, you have to grab the opportunity when it comes along. Lily feels it is her time now to empower 100 million people to share their stories in books that transform the world and it is your time now to shine.

If Harry had not believed in Lily’s potential, he would perhaps not have given her the chance of getting trained by him and she would not have fulfilled her potential. If Harry had not given Lily a chance to do the copywriting for his websites, books, written materials, he would perhaps not have achieved his dreams of speaking on worldwide stages. There is nothing you cannot do if only you get the help of the right people.

Lily Overcame The Fear Of Public Speaking

Lily Patrascu was trained by Harry Sardinas as part of Speakers Are Leaders to overcome the fear of speaking and speak confidently. Since then she became unstoppable in her speaking, continuously improving and currently her mission has grown significantly to empowering 100 million people to be happier, to go after what they want and share their stories in magically influencing books that transform the world.

Lily & Harry Attracted Joint Ventures & Collaborations To Them On A Daily Basis

Harry is regularly stopped on the street because he is recognised for appearing on the cover of his book and for having his book cover shown at events worldwide. People from social media invited Harry and Lily to speak in Peru after speaking on stage at the Les Brown event. One attendee who attended Speakers Are Leaders invited Harry to facilitate bringing Les Brown to Turkey to speak at Chamber of Commerce and to facilitate bringing Richard Branson to the same event - and invited Harry & Lily to speak alongside them at the same event. This hasn't yet happened because timing and funding for that event still needed to be agreed, but the opportunity came to Harry because of speaking with impact in a very engaging way at Les Brown event in London, and also because Harry's personal brand is higher than many speakers thanks to his books.

Whilst speaking in Peru, training many corporate organisations on personal branding, sales, leadership, public speaking and motivation, Harry & Lily were invited to speak as keynote speakers in Mexico at UNEA Business University in Tijuana and were given an award for their contribution to inspiring hundreds of students. They were also invited to speak in Colombia by one of the largest promoters in the country with whom they were invited to dine.

Speaking in Mexico at this conference got Harry & Lily invited to speak at Global Business Corporation Awards as keynote speakers.

Whilst speaking there, they were invited to speak in Uruguay and Costa Rica by various savings and investment companies, as well as by Chamber of Commerce Costa Rica.

Whilst speaking at Entrepreneurs Are Leaders in London, Harry & Lily were invited to speak later on in Rwanda and in the UK. They also get daily requests for collaborations and joint ventures from various people attending their seminars.

Whilst speaking in London promoting a network marketing company, Harry & Lily were invited to Singapore - where they organised their own events multiple times, where they were sponsored for the conference room cost, & attracted influential speakers like Sean Seah who regularly speaks for thousands of entrepreneurs.

Whilst attending Better Your Best Contest from Marketing University of his marketing mentor Armand Morin, Harry & Lily attracted the attention of coach Ken Carter (featured in a movie with the same name) who was a speaker at that event, with their image and presence. As a result, coach Ken Carter is now speaking at Entrepreneurs are Leaders event in Singapore in April 2020.

Harry & Lily were due to speak at an entrepreneurship conference in London which finally was cancelled but that is where they met royal advisor Chris Imafidon, who invited Harry to see the Queen because of their positive vibe, energy, great image and presence. They also met Marie Diamond (Feng Shui expert, transformational leader featured in the movie "The Secret") at that event, and as a result, Marie accepted to speak at Entrepreneurs Are Leaders event in July 2019.

At the same event they met someone who opened several opportunities for them such as being featured on the cover of Business Fit Magazine, being interviewed on a Spanish speaking virtual summit and being invited to speak in Dubai.

Here Are Some Results Lily & Harry Have Achieved:

Harry & Lily were invited to speak in Dubai at a women in business conference and whilst there, they met a paid keynote speakers bureau and an affiliate platform ready to accept new online courses to promote. Harry and Lily co - organising Exponential Business Growth Strategies event with multimillionaire Yavuz Altun brought upon a potential speaking opportunity for them to train the teams at Kernel And Roast business of Haluk Okutur, the billionaire founder of Simit Sarayi.

They are currently offering many of the opportunities they personally attracted to those people taking their courses.

Harry & Lily Became Network Marketing Leaders

Though Harry was not officially a network marketing leader, he showed leadership and gathered teams together, and as a result became #1 for team sales and Lily became #1 solo sales and they were both rewarded with the opportunity to have a photo taken with #1 business strategist Tony Robbins and some silver coins of Robert Kiyosaki, as well as some signed books of Robert Kiyosaki. They both used the fact they were authors as a way to differentiate from others.

Yavuz Altun says: *"I want the kind of energy Harry has when he speaks on stage in front of thousands of people. I was so inspired by him when I saw him at the Les Brown event in January 2018 because he is focused on engaging the audience in an authentic way, and he shows that anyone can do it too. He inspires everyone to believe that if you go after anything you want with all your capacity, strength, hope and confidence, you will be able to achieve it. Harry has immense potential and he can help you become more confident, more fun, more engaging as a speaker so you can entertain, motivate, touch, move and inspire the audience, in a way that you are left with not only motivation but you actually get to implement speaking on stage several times, even if you have a huge fear of speaking or if you have never spoken before. At the end you are left feeling empowered and inspired to gain confidence and raise your productivity. If you want to improve your sales and marketing skills,communicate more efficiently and effectively, offer better financial criteria for your projects, and make more deals, you should look for Lily because her passion and effort for her work behind each word and her way of caring for people is remarkable."*

Christian came to our training so he could overcome his fear of public speaking. Christian deeply cares about people in need, so he actively participates in and speaks at workshops at the local Chamber of Commerce on the topic of refugees. “I’m Christian Moser, experienced IT Engineer but raising a new business to a totally new level since I met Lily Patrascu and Harry Sardinas at the Speakers Are Leaders event in July. Before that event I thought I have a clue about the business but I had to realise that I had not. Lily opened my eyes and gave me access to an extraordinary opportunity of writing my own book and also introducing me to the mechanisms of nowadays social media marketing. Lily is not just awesome in creating a book with you from scratch in 60 days. She is also an expert in all the marketing aspects of targeting your market and creating the necessary funnels to reach your future clients. Participating in the Brand For Speakers Programme opened me up to a new realm of opportunities to create the system One Life, One List System and bringing a Freedom Lifestyle to millions of people in the world so that they can be much more effective and live their dreams. It took me years to think about the strategy. Lily managed that in a few weeks.”

Create A Revolutionary New Business That Could Make A Real Difference Worldwide

Property Developer Sandro Heitor Is Making A Difference With His Book, A Brand New Spiritual Gym Wear Brand & Innovative Spiritual Houses & Speaking Confidently Internationally

Sandro was a property developer and investor ready to write and publish his book but he had no idea how to do it. He was already making a difference building quality properties but he was looking for a way to make a bigger difference with his business and to share his journey to becoming successful so that other entrepreneurs would find a better way to achieve wealth without losing themselves in the process.

He trusted his gut feeling and started the Brand For Speakers and Speakers Are Leaders Programme which lead to having his book published, feeling empowered to speak online daily the day after our course after a 3 year break in social media activity, international speaking opportunities in Singapore at Entrepreneurs Are Leaders event, getting booked to speak in Mexico at an entrepreneurship conference in Mexicali and at the largest business university with 65 branches called UNEA in Tijuana, speaking at Entrepreneurs Are Leaders event in London, at the same event as celebrities like Marie Diamond - Feng Shui expert featured in the movie “The Secret” viewed by 500 million people, marketing multimillionaire Armand Morin and youtube influencer ‘Millionaire Monk’ Eric Ho - who has over 610k followers in youtube. The book inspired him to create a new spiritual gym wear brand. He was offered 7 properties to manage whilst speaking in Singapore; he started selling tickets to his new property workshop, he raised his profile on social media, he was featured in the media and he gained new followers on social media easily.

He is currently working with one of the top designers in the world to bring his new spiritual gym wear brand to life, which he believes will become a billion - pound business. He is currently looking to build spiritual houses (homes that understand how you feel) as well to make a difference to the lives of millions of people. His book was featured in selected bookstores in Ireland.

“Speakers Are Leaders woke up the “beast” (=the power in me), and trained me not just how to speak on stage and how to deliver my story, but about the world of public speaking and how it works. They really highlighted how much power one’s voice has and how "one voice can change the world". When you are on stage, you now have a crowd listening, to be able to deliver a story, a message or a product from that stage is a powerful position to be in and to learn from. Since I graduated from Speakers are Leaders, I have spoken in London, Singapore which crowned me international speaker, my business felt the confidence and the boost for us to do our own workshops, invited to speak in Ireland, going to speak in Mexico at the top Business University and invited to speak at a Health Centre in Leeds....not to mention the "NO HESITATION " confidence to video social content daily and at will, oh and worth pointing out it has only been 8 months, with so much in the pipeline which I do not want to speak just yet. Speakers are Leaders will give you the training, the education you need to target the top event organisers in the world if that's what you want, so you understand how they work and what they look for and also speakers are Leaders are the stage. So at their events, you have the opportunity to speak on their stage and their events are not mediocre and just national, they are a global presence. With Power does come great responsibility, if you want to make a difference, you first got to understand how the game is played at the top.”

What Speakers Are Leaders Attendees Say About Harry & Lily:

"I met Harry about a year ago in an organization called New Tycoon. Who else is drawn to Harry's infectious energy? He has this amazing gift of inspiring others to do great things regardless of what you do, what your passion is or where you want to go in life. Harry is cool to be able to really draw that out. I think that is what made him very successful. I'm going on to many different stages and brought so many others to do great things as well, but this really wouldn't have existed if it wasn't for Harry and all of the great work he's done. That has reflected in many of the other guys within this group, I said it myself. Before I met Harry, I was doing many things, I thought I was already very successful - but it wasn't anything as close to my true passion. A year on now, I got more clients that I can take on, I do multiple seminars both in the UK and internationally and I've got another one coming up in February."

- James Coursier

"Before Speakers Are Leaders, I was already speaking. What I liked was you can feel Harry to be authentic and you can feel his words landing in each one of you receiving it as it is touching the heart. Now that is what I like about Harry's course, because his words land and he's able to deliver his ideas about how speakers are really leaders. That I think is the reason why I continue on with the Millionaire Speakers Network offered at the event. So, I recommend to all of you entrepreneurs who have decided that you want to expand yourself and you want to be authentic and leave a message and move people's hearts, come to Speakers Are Leaders."

- Peter Ng

"Public speaking is really not one of my things. I like to talk, but standing up in front of people - it gives me the nerves. As I was browsing Facebook, I came across Speakers Are Leaders. I decided to have a look. Having a masters, I really want to go beyond just being a teacher, I want something more than that. Whether being in the headship position or actually I had a dream of running my own nursery, so I'm thinking along those lines. But to be able to be an entrepreneur or lead in those positions - you've got to be able to speak. Public speaking should be something that you are really confident in. So I decided to put my name down for this, just to help myself improve with self confidence. To empower me to stand in front of an audience, regardless of who it is and just give my message that I want to give. That was my problem and struggle. The change I made coming here today was seeing a lot of people from different backgrounds and we all have one thing in common. And it just inspires me to be honest to see people come up here and deliver, and we're all kind of like in the same boat. It has empowered me and I feel like I wanted to do more of this Speakers Are Leaders to improve in my public speaking."

- Jorbay Miatta Koroma

I'm totally mesmerized by Harry's charismatic way of delivering content, way of teaching us how to speak and how to use our voice in an effective way. We danced, we laughed, we got to tell stories and I just loved it all the way through. Harry has been massively helpful and thoughtful. I'm so glad and grateful I get to work with him. It's been so much fun. More to come, thank you so much."

- Annie Le

So now I work 21 hours a week, I used to work 60 and I'm earning the same money. In the process, I have gained so much time freedom that I could start my own property business, thanks also to advice given by Harry. I've started my training business in property, thanks to the ability I now have which is speaking in public so confidently. Harry helped me boost up my confidence and made me believe that I have a voice and that I can speak to more people. I highly, highly recommend Harry, because I'm sure we all believe that if we have the right mentoring, it can completely change the rest of our lives."

I can tell you one thing that I always wanted to be a public international speaker and right now I realize that I've been in the right place since the day before yesterday. Just coming in here I've discovered so many powerful things that I am. I've discovered my true self, my vision that is about to come true and right now I'm taking off. My life is changing. Let alone in the next year, there's going to be a massive growth. I want to say if you are sitting at home and you are watching this video, but you want to go for something amazing in your life, come to this event and discover yourself. "Hi everyone, my name is Bianca Madison Vuleta - lifestyle medicine coach and health coach. From the wekend, Harry Sardinas and Speakers Are Leaders has been absolutely amazing. I'm still buzzing from the weekend. We've learned so much. Harry's style of presentation is incredible. We learned a lot through the visuals. It is a very highly participatory course, really really engaging. We had to stand on stage a lot and present in front of the whole amazingly supportive group. I have done myself quite a lot presenting, already speaking, but you could always learn more. I have actually learned some really really great tips this weekend that I didn't know about. So I'm going to practice a lot more and I'm inviting anyone who's even thinking of presenting or being a leader in any capacity or speaker on stage or otherwise please come and join Harry's workshop. Lily is also amazing as well."

- Bianca Madison Vuleta

"Hi I'm Raj Agrawal, I'm a business owner. In my projects, I have to meet of investors and customers. I was struggling to communicate with them and do the public speaking. That's where I came across Speakers Are Leaders program, and I joined this weekend. Harry is an amazing speaker and coach, he taught me lots of techniques which can be used easily within the program. It enhanced me and gave me more confidence in public speaking - which I'm going to do in my day to day job now for my project. I highly recommend you to join Speakers Are Leaders. So if anyone of you there are looking for public speaking or personality development, Harry's your man. No excuses, enroll for the program and make yourself proud in public speaking"

- Raj Agrawal

"What this workshop has given me is the ability to express myself freely such as on stage, but also one to one with people as well and in groups. The confidence and that ability to do that really allows me to show genuineness and authenticity. For many years, I struggled with public speaking. If you saw me 10 years ago, I would be hiding, I would not have the confidence to be up here right now. After I met Harry at Toastmasters, I got introduced to this whole world of personal development and public speaking. Now, I'm can express myself, I really feel like a completely new person. I am now building my business and I think what resonates with me a lot was Oprah's speech - keeping my service to the world, suggests my job is very very focused on helping. I wouldn't have learned that if it wasn't for Harry's workshop and specifically Oprah's speech as well."

- Prajesh Patel

"Hi my name is Ivan, I'm a doctor and a property investor. I've been struggling with getting lots of people involved in the projects that I invest in. I've always wanted to share my success in property investing with other people, because I've enjoyed the profits I've made and I wanted to share this. However, I found it quite hard to share these opportunities with people because I didn't have a snappy elevator pitch. I came to Speakers Are Leaders and I've found a very wasy way to market and to share the opportunities I have with other people. It's been fantastic, I truly recommend it."

"Hi guys, I'm Adam and I'm a tech consultant. I'm actually struggling a lot recently with my direction in life with figuring out what it is I wanted to do, how to even fulfill my potential professionally and how to actually feel kind of gratified from what I do. I've actually tried a lot - I've spoken to career consultants, I've read books, I've done online questionnaires, none of those worked. Lily, Harry and Speakers Are Leaders actually helped me to figure out what it is that I want to do. It surrounded me with the right community of people doing the same thing like me and they are there to achieve what they want to achieve. I highly recommend it to anyone who is thinking along the same lines as I am - someone who's had some struggles, I'm sure most of you have, and hopefully I'll see some of you come along."

"Hi my name is Armandas, I work as a manager in a transfer company. I came to Harry Sardinas' event Speakers Are Leaders, because I wasn't confident of how to speak in front of people and how to beat my fear when I speak to people that I don't know. But after the two days of attending the workshop, I'm so confident now - much much confident now. You will learn how to walk together with your fear, how to get used to the fear and just stay on the stage and be confident. We learned so many strategies like how to walk in the stage and so many things, I hope to see you again to learn more. Thank you."

- Armandas Aurila

"My name is Jules Sherrington, I'm an inventor. I was attracted to Speakers Are Leaders. Two months ago, someone introduced me to Speakers Are Leaders. I've joined the workshop just this weekend. I was losing people's attention. All of that changed when I came to Harry Sardinas' Speakers Are Leaders training course, and I could train in delivering my very own elevator pitch. I started saving my time and energy. I got trained in a formula that allowed me to be clear, concise and deliver message in a short period of time and keep my clients engaged. If you guys value your time, come here and do Harry's course."

- Aleksandra Backunaite

"My name is Vinita Parmar, I am a henna artist. I have been working in railways for years and took a break from my previous job, in order to look after my kids and my family. When I decided to go back to my job, I realized it was impossible, because the shift work wouldn't give me the flexibility I wanted to look after my family. Then I came across Harry and he invited me to attend Speakers Are Leaders, where I discovered that my dream hasn't died yet. I can still live my dream. I do have a passion, which I haven't forgotten about and I can start my own business. In fact, the thing that I was thinking was very little could be big. I could do it in a bigger platform, I could have my workshop and my passion - which is being a henna designer can lead me and achieve my dreams. So I'm really thankful to Speakers Are Leaders. I recommend everyone to go to Harry, who is someone who helps each one of you to achieve what they want in their life. Thank you."

Hi Lily!

I just wanted to say thank for inviting me to the mastermind class yesterday. I just finished receiving some bad news today. Normally I would have reacted really badly. However, yesterday I was able to sit with so many people who have achieved soo much in their life's. They have picked themselves up, even when they were faced with hard times. You taking the time to listen to me was the best thing anyone has ever done for me. Today I will turn a new leaf and NEVER let any failure define me as a person. Thank you again for inviting me yesterday. Being amongst great people like yourself has showed me that I do not need to be limited in life because I am worth much more.

I really hope we stay in contact.

Kindest Regards,

On a separate note I must say, so far I'm kind of pleased that I joined Harry's adventure World of wisdom.
This is because I have always believed and also convinced myself that I can never speak publicly but now I feel that there may lay a glimmer of hope. I must thank my dear long term friend Mahtab.

My whole month's objectives are almost in an infinite list and I won't bore you guys with it.
In the meantime one thing I will say though, I wish to remind myself all through out the month that I'm better than what I consider myself to be. Please feel free to let me know

When I Met **Harry Sardinas** and **Lily Patrascu** It started with a book, then Singapore international stage, then London event, then getting the branding right and its 9 months later and it is still going strong, because they keep going strong.

As I write this message, I am at about 37000 Feet on the way to Thailand for the videography and photoshoot of my new brand, Align_d.

The moment we put together The Entrepreneur Paradox, was the day I was able to breathe.

The moment I shared my story on stage which had never been told to anyone, was the moment I was able to let go.

On the plane back to London from Singapore It hit me what to do next, it was just so clear, even the structure on how deep to make this brand was clear.

The Entrepreneur Paradox was the single largest investment I have ever done on myself. Did I have any guarantees it was going to get me more than a book? No, no guarantees.

Did I believe in Lily and Harry? This is the wrong

Did I believe in Lily and Harry? This is the wrong question.

I believed that if I showed Harry and Lily, value they will channel me right and where appropriate, that's what I believed. And they did.

Align_d is a spin off The Entrepreneur Paradox ...I did not invest the largest single investment on myself just for a book, I believed it was going to be more than that, but didnt know what.

The video below will tell you where I am planning to take this venture. It should also make you think your value has no cap, so if the opportunity comes and you have the chance to show your worth? TAKE IT.

SpeakersareLeaders has transformed my life, inspired and trained me to realise my dreams and become an international, inspirational and motivational speaker and aspire to best selling author. This is why I signed up to create a personal empowerment system that provides steps to a more productive, satisfied and happier self. Achieve the results that you desire and deserve like I did in my book 'Get Stuff Done'. Thank you Harry Sardinas and Lily Patrascu.

Speakers Are Leaders Woke up the beast, and trained me not just how to speak on stage and how to deliver my story, but about the world of Public speaking and how it works. They really highlighted how much power, ones voice has and how "one voice can change the world". When you are on stage, you now have a crowd listening, to be able to deliver a story, a message or a product from that stage is a powerful position to be in and to learn from. Since I graduated from Speakers are Leaders, I have spoken in London, Singapore which crowned me international speaker, my business felt the confidence and the boost for us to do our own workshops, invited to speak in Ireland, going to speak in Mexico at the top Business University and invited to speak at a Health Centre in Leeds....not to mention the "NO HESITATION " confidence to video social content daily and at will, oh and worth pointing out it has only been 8 months, with so much in the pipeline which I do not want to speak just yet. Speakers are Leaders will give you the training, the education you need to target the top event organisers in the world if that's what you want, so you understand how they work and what they look for and also speakers are Leaders are the stage. So at their events, you have the opportunity to speak on their stage and their events are not mediocre and just national, they are a global presence. With

What Speakers Are Leaders Attendees Say About Harry & Lily:

This was my second time attending Speakers are Leaders workshop. I really enjoyed meeting new people, exercises are fun,exciting and the program is designed to make you bring out the inner voice with poise. I experienced amazing breakthroughs over the 2 days. You will learn how to speak, prepare a speech, how to use vocal variety, speak in front of the camera which is all done in a fun and exciting way. Each exercise is building you up for the next one. I would like to say thank you to Harry and the amazing team for organising the workshop. We had so much fun. The workshop is growing and so are we. I highly recommend the course, you will make great progress. I have now been invited at an event to speak on stage next week. Which I am so excited about. I am also starting my own show. This would not be happening if I did not have the incredible support and guidance from Harry and his team at speakers are Leaders workshop. Go do it!!😁

The course has really help me massively improve my presence and confidence on stage. I cannot recommend this course enough.

What a great experience was to meet Harry and his wife Lily Patrascu
1) Besides the joy that brought us to know that we share the same nationality plus your mentoring was a true blessing.

FOR THE GENERAL PUBLIC
I want the people to know that Harry Sardinas could've charged me between 2-5K for his almost 2 hours of mentoring yesterday,
for his support during the Armand Morin's Complete Seminar by encouraging me to connect with other business owners, and for his warm and espontanous humble company. Instead he did something special for me, I know I sound like I am selling you something and you are correct. Mr. Sardinas charged me nothing at all. He understood that I just went through a school graduation and gave me a lot of tools that (of course) I won't share here. TO know this tricks you need to want to invest in yourself, even if it is just energy and time.

With that being said, I am a true testimonial that he treats people like close family, I vouche and recommend his service since he is up to-date , he is encouraging and shows a true interest in seeing one succed. God bless you and your family and hopefully we can get to chat about my results in a short future (Si Dios quire) in London ;)

Fantastic!

I have known Harry and Lilly for some time and it's truly inspiring to see what they creating. Speakers Are Leaders is not just a place where speakers learn through practical experience and receiving cutting edge information but it is also group of people who support one another in their journeys on a daily basis. This movement is growing rapidly and providing amazing opportunities to those connected to it (eg meeting Les Brown in October). I attended their seminar yesterday and I'm so inspired by my experience and the personal breakthroughs I witnessed. They are offering great value, great information and I met some special people. I look forward to their next event!

What an extraordinary experience with the most amazing and most positive people I have ever met - Harry, Lily, their crew and everyone that joined.

I first met Harry a year ago and what pulled me into his 2-Day Intensive Speakers are Leaders Course is not only the course itself (which is just mind-blowing), but his genuine care for his own clients and his humbleness. He wears his heart on his sleeve and he hasn't changed a bit since I have known him. Unlike most people who achieve success in their life, he doesn't forget where he came from and he is quite accessible and approachable. You will see that he isn't in this business solely for the money, but he genuinely wants to help people succeed. He treats everyone as his close family. Now I understand why his branding is "Speakers are Leaders" - he is the quintessential LEADER.

With regard to the course itself, I joined the course because I have always had stage fright in the past since childhood, and by the end of the course, I can definitely confirm that my Public Speaking Skills has improved a ton! To be honest, I was not expecting it to be this intense, structured and detailed, but it just blew my mind.

This is what you will get in this 2-day intensive Speakers are Leaders Course
- Public Speaking
- Sales and Marketing
- Branding
- Video Creation
- Testimonials
- Hypnotherapy
- Meditation
- Leadership and Teamwork

An awesome, outstanding and fun-packed event from one of the most prominent public speakers I know. Not only has Harry further enhanced my passion and love of public speaking within me, but he has helped to ignited a new level of consciousness within my professional capabilities as a business woman and public speaker. Together with his team, they have imparted serious knowledge and inspiration that has changed the way I will now approach the world with it.

Having benefited from the pleasure of a fantastic team of genius transformational Directors, I am able to confidentially and comfortably take the information gained through the event safely with me on my journey ahead; a journey that will take my professional career as a public speaker to a whole new level of evolution.

If you desire professionals training to be a public speaker, I recommend you join the next Speaker Are Leaders Bootcamp event that will equip you with the tools to succeed on the big stage as you stand up behind any mic. You too then can impact other peoples lives for the better!

Thank you all for your contribution to my future guys.

Stay blessed!
